Man is the maker of his own fortune. We cannot prosper in life if we are afraid of labour. Some people think that success in life depends on luck or chance. Nothing can be further from truth. Scientists have toiled day and night in their laboratories to invent gramophone, radio and television which have added to the joy of our life. Life is not a bed of roses. It will be sheer misery if we shrink from labour and fail to earn money to meet our daily expenses. Industry is the secret of success not only for an individual but

also for a nation. Russia and America are most powerful nations. They have attained this power and position by virtue of the earnest toil of their children. We Indians too must work hard if we want to raise the prestige of our homeland in the eyes of the world.
