### Educational Tour Report Raiganj Surendranath Mahavidyalaya

Excursions are essential for students to delve into biosciences, offering hands-on experiences that transcend traditional learning. They deepen understanding of biodiversity, fostering appreciation for nature and environmental stewardship. Through direct engagement with flora and fauna, students gain nuanced insights into species diversity. In these immersive environments, theoretical knowledge blends seamlessly with practical applications, allowing students to observe ecological principles in action. They develop critical thinking skills by analyzing real-life scenarios and devising innovative solutions, nurturing a sense of responsibility for biodiversity preservation.

Excursions cater to diverse learning styles, providing multi-sensory experiences that enrich students' understanding. By immersing themselves in natural habitats, students cultivate a profound respect for the environment. Ultimately, excursions shape well-rounded individuals equipped to advocate for biodiversity conservation, ensuring a sustainable future.

Department of Botany, Raiganj Surendranath Mahavidyalaya had decided to organized an excursion held on **from** 17<sup>th</sup> November,2022 to 19<sup>th</sup> November,2022 at Lataguri (Dooars) with the concern of the institutional Head i.e. TIC escorted by the departmental faculty members along with the 3<sup>rd</sup> and 5<sup>th</sup> semester students.

REPORT ON
Study Tour to
PADMAJA NAIDU HIMALAYAN ZOOLOGICAL PARK
Darjeeling, West Bengal
4<sup>th</sup> April 2023 to 8<sup>th</sup> April 2023

Organised by

Department of Zoology, Raiganj Surendranath Mahavidyalaya

Title: An Educational Tour to Padmaja Naidu Himalayan Zoological Park: to better understand Bio-diversity conservation

An educational trip to Padmaja Naidu Himalayan Zoological park was organized by the Department of Zoology, Raiganj Surendranath Mahavidyalaya on 4<sup>th</sup> April to 8<sup>th</sup> April 2023 to help the Zoology (Major) Semester-VI students to better understand bio-diversity conservation.

Mr. Debajit Chakraborty, Assistant Professor of Department of Zoology, RSM and Mr. Biswanath Das, Laboratory Attendant of Zoology Department guided the entire trip. PadmajaNaidu Himalayan Zoological Park is a 27.3 ha conservation area with average elevation of 2134m. One of the specialties of this park is the breeding animals in Alpine condition. It is one the Zoological parks where breeding programs for snow leopard, Himalayan wolf and redpanda are going on. It is also the central hub for Zoological Authority of India for red panda conservation program.

Established back in 14<sup>th</sup> August 1958, under the Department of Education, West Bengal, it has been a premiere place for conservation of Himalayan flora and fauna. Since, 1972, this Zoological garden became a registered society, the maintenance of which is borne by State and Central Government. This is the off-display breeding center for snow leopard, Himalayan wolf and red panda. Captive breeding of snow leopard started here back in 1983. The red panda program started in1994. Besides, this Zoo is the breeding center for Himalayan tahr, blue sheep, Himalayan monal, Himalayan salamander, grey peacock and blood pheasant.

During this trip, the students have collected knowledge about the habit, habitat, geographical distribution, and breeding strategies of the following animals and birds

Animals: Leopard cat, Asian palm civet, jungle cat, Mishmi takin, barking deer, royal Bengal tiger, Asiatic black bear, yak, Himalayan wolf, black panther, snow leopard,

Sudarshanpur, Raiganj, Uttar Dinajpur (Affiliated to University of Gour Banga, Malda) Recognized by UGC U/S 2f & 12(B) NAAC accredited College with "B"+ Grade (December`2016)

Birds: Golden pheasant, silver pheasant, lady Amherst pheasant, macaw.

The students acquired detailed theoretical knowledge and witnessed real life practices related to red panda conservation.

Project Red Panda:

Red panda is a small mammal of Himalayas, almost of jungle cat size, with chestnut coat colour, and ringed tail. It is distributed across the entire Himalayan belt upto Burma.

Initially categorized as threatened animal by habitat loss, deforestation, increased poaching. Although, this animal receives protection through Indian Wild Life Protection Act (1972); in 2006, IUCN enlisted this animal as endangered.

As a part of global captive breeding project and master plan, red panda conservation project was initiated in this Zoo back in 1994. Since then, by captive breeding new baby pandas are produced in this Zoo on regular basis. Currently, there are twenty- one healthy panda in this Zoo.

### Objectives of the trip:

- 1. To better understand ex-situ conservation and captive breeding technology.
- 2. To educating, motivating and initiating awareness campaign among the local people as well as the visitors on the importance of conservation of Himalayan ecosystem.

To know more on applied research on animal biology, behavioral study and other conservation related research.

REPORT OF

**Educational Tour** 

(As per UGB CBCS Syllabus of History Honours, SEM-VI)

Venue: Santiniketan, Bolpur Date: 19-21 May, 2023

Organised by
Department of History
Raiganj Surendranath Mahavidyalaya

Sudarshanpur, Raiganj, Uttar Dinajpur (Affiliated to University of Gour Banga, Malda) Recognized by UGC U/S 2f & 12(B)

NAAC accredited College with "B"+ Grade (December 2016)

**Summary Report:** 

O [S10-1986] O

As a part of the CBCS syllabus of the University of Gour Banga, the Department of History, Raiganj

Surendranath Mahavidyalaya has conducted an Educational Tour at Santiniketan, Bolpur on 19-21

May, 2023 with our Semester-VI Honours batch. Three of our teachers also participated in this study

visit to take care of the students. We have chosen Santiniketan, founded by Kabiguru Rabindranath

Tagore, because of its cultural heritage and educational importance. The center is also recently

declared as India's 41st UNESCO World Heritage Site. We stayed here for 2 days and visited all the

important places of the Visva Bharati campus, Kopai river, Sonajhuri Haat, Ballavpur Wildlife

Sanctuary, Kankalitala mandir and so on. Our students benefited most since they have experienced a

practical knowledge about RabindranathTagore, his creation and his contemporaries which they

incorporated in their project report and seminar presentation later.

**Total Number of Teachers Attended:** 03

**Total Number of Students Participated: 24** 

Venue: Santiniketan, Bolpur
